

Landing aur login page same hone chahiye jaise color aur design hai. Bas landing page se 'Career Support' section hata do. Baaki sab same hi rahe.

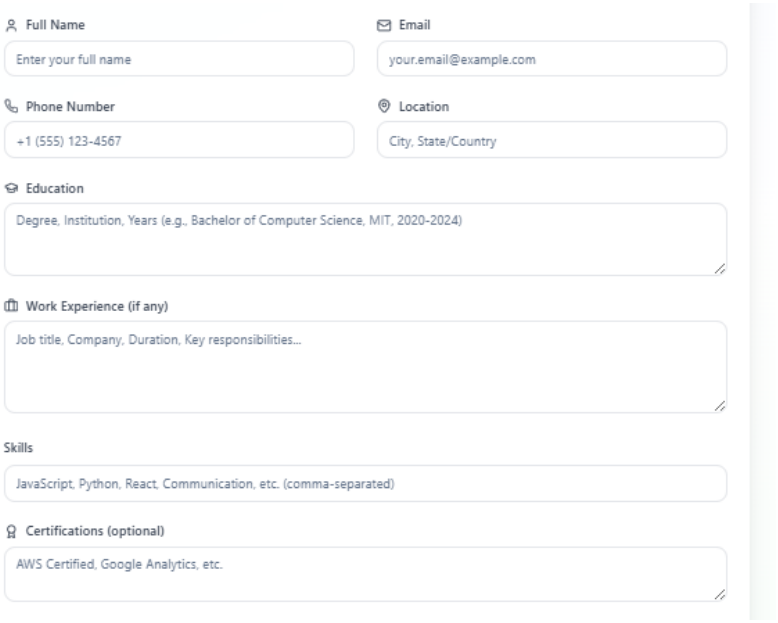

Register page par 'User Type' ki jagah 'Skills' aur 'Profession' ka option add karna hai. Taaki future mein jab jobs fetch ki jaayein, toh wo inke according ho sakein.

Dashboard waise hi rahega jaise image mein dikhaya gaya hai. Upar jo 'Profile' ka option hai, Is form mein ek 'Profile Picture' upload karne ka option bhi ho. Taaki user pehli baar apni profile update kar sake, aur baad mein usse dekh bhi sake aur update bhi kar sake.

Profile form

Is form ke last mein Save/Update aur Reset buttons add kar diye jayein.
